b) Workers specifically have a duty to take reasonable care for the safety and welfare of Students in their care. That duty is to consider and take all reasonable action to protect Students from known hazards or risk of harm that can be reasonably predicted. The standard of care that is required needs to take into consideration various factors, such as a Student's maturity and ability.

c) Duty of care to Students applies during all activities and functions conducted or arranged by Schools where Students are in the care of Workers or Other Persons at the Workplace. The risk associated with any activity needs to be assessed and managed before the activity is undertaken.

e) A single serious failure to exercise appropriate duty of care, or persistent repeated failures,
may constitute neglect or negligence according to the law if actual harm is caused or if there is the potential to cause significant harm to a Child, Student, Workers, Other Persons or self.

Neglect may include either an action or inaction by a person who has care responsibilities towards a Student, Workers, Other Persons or self, such as:
