

MJR has changed my life and I have learnt about attitudes and I want to be positive about life and I am better at handling my small problems.

This year I am more respectful and happy!

Since I came to Star I have felt very welcome and I feel happy to be at Star and I smile more often.

I am more confident and I have learnt not to take people for granted.

This year I am better at handling my fears and I want to reflect on my day more to see the Spirit of Jesus in my life

MJR has helped me to be more accepting of others and I have realised that life is not all about me and I am a better team person at home.

This year I don't get as angry with my sister and I am better at helping at home and I smile more often.

I used to frown a lot and now I smile much more. I like the sayings in the MJR and they are glued into my head.
